Terms of Use

Last Updated as of December 19, 2018

This Terms of Use (together with our Privacy Policy, incorporated herein by reference, the “Agreement”) is a legal agreement between you and Descrow (“Descrow” or “we”). By accessing our website Descrow.org (the “Site”), you agree to comply with and be legally bound by the Agreement. If you do not agree, please do not access our Site. Our Site is not for minors (persons under 21 or under the legal age in your jurisdiction). If you are minor, then please do not use the Site.

Description of the platform functionality.

Descrow is an online crowdfunding platform based on blockchain technology. We provide online fundraising tools carried out with the help of blockchain technology and smart contracts to individuals and entities that wish to raise cryptocurrencies for causes and projects they care about (the “Services”). Each person or entity that uses the Site (a “User”) and is registered at the Site (has fully filled and verified profile at the Site) can create a project and set up a project page on the Site by filling the relevant forms and thus become the project founder on the Site (a “Startup”). Startup can post texts, images, audio, video, photo and other digital materials (“User Content”) about their project on the project page of the Site. Startup can receive cryptocurrency transfers from those Users who are registered at the Site and decide to support the project in the form of cryptocurrency (the “Investors”) or from those Users who are registered at the Site and decide to support the project in the form of services (the “Experts”). “Startups”, “Investors”, “Experts” and visitors to the Site are “Users” of the Site. Through our advanced search tools, all visitors to the Site can search through all of the projects and choose to provide their cryptocurrencies or services to the ones that they wish to support. Anyone who is registered at the Site can create their project and thus become a Startup, can become an Investor by contributing cryptocurrency towards any Startup in accordance with Crowdfunding Agreement determined by Startup or become an Expert by providing services towards any Startup in accordance with Expert Services Agreement determined by Startup.

Descrow only provides a technology platform that allows Startups to connect and deal with Investors by providing cryptocurrency to a project or to connect and deal with Experts by providing

services for project arrangements and implementation. Investors and Experts enter into contracts and agreements directly with Startups. Descrow is not a party to Crowdfunding Agreements, Expert Services Agreements or other agreements between Startups, Investors and Experts. All dealings are solely between Users of the Site. We make no representations about the quality, safety, morality or legality of any project or the truth or accuracy of any User Content that appears on the Site. We do not guarantee that cryptocurrency provided to projects will be used as promised, or that expert services will be provided to Startups as agreed, or that the projects will reach their goals. Those who access or use the Services do so at their own risk and volition and are solely responsible for compliance with applicable law.

Ownership

Owning DES tokens does not in any way grant their holder any ownership or right to property in DES tokens or on the Descrow platform or that of any other related company. While the community's opinions and feedback may be taken into account, DES tokens do not give any right to participate in decision making or any direction of business development related to the Descrow platform.

Absence of guarantees of income or profit

There is no guarantee that DES tokens will grow in value. If it happens, there are no guarantees that the rate of DES tokens will not decrease, including significantly, due to some unforeseen events, or events over which the developers have no control, or because of force majeure circumstances.

Risks associated with blockchain

Functionality of the Descrow implies usage of blockchain technology. Therefore, any failure or malfunctioning of the relevant software and blockchain protocols may lead to the trading network of DES tokens working unexpectedly.

Regulatory uncertainty

Blockchain technologies are subject to supervision and control by various regulatory bodies around the world. DES tokens may fall under one or more requests or actions on their part, including but not limited to restrictions imposed on the use or possession of digital tokens such as DES tokens, which may slow or limit the functionality or repurchase of DES tokens in the future.

By sending cryptocurrency to purchase DES tokens from us, you represent and warrant that:

1. Your purchase of DES tokens complies with applicable laws and regulations in your jurisdiction, including, but not limited to,

- (i) legal capacity and any other threshold requirements in your jurisdiction for the purchase of the DES tokens and entering into contracts with the Descrow,
- (ii) any foreign exchange or regulatory restrictions applicable to such purchase, and
- (iii) any governmental or other consents that may need to be obtained;

2. You will comply with any applicable tax obligations in your jurisdiction arising from your purchase of DES tokens; and

3. You are not a citizen or resident of a geographic area in which acceptance of delivery of the DES tokens is prohibited by applicable law, decree, regulation, treaty, or administrative act.

The regulatory status of the DES tokens and distributed ledger technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether regulatory agencies may apply existing regulation with respect to such technology and its applications, including the DES tokens. It is likewise difficult to predict how or whether legislatures or regulatory agencies may implement changes to law and regulation affecting distributed ledger technology and its applications, including DES tokens. Regulatory actions could negatively impact the DES tokens in various ways, including, for purposes of illustration only, through a determination that the purchase, sale and delivery of the DES tokens constitutes unlawful activity or that the DES tokens are a regulated instrument that require registration or licensing of those instruments or some or all of the parties involved in the purchase, sale and delivery thereof. Descrow may cease operations in a jurisdiction in the event that regulatory actions, or changes to law or regulation, make it illegal to operate in such jurisdiction, or commercially undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction.

DES tokens are not an investment

DES tokens are not official or legally binding investments of any kind. DES digital tokens are designed to be used inside Descrow to pay for the launch of crowdfunding projects, to purchase various attributes for crowdfunding projects, and for other internal processes and payments within the infrastructure of the Descrow and relevant features of the Descrow platform. In case of unforeseen circumstances, the objectives stated in this document may be changed. Despite the fact that we intend to reach all goals described in this document, all persons and parties involved in the purchase of DES tokens do so at their own risk.

Quantum computers

Technical innovations, like the development of quantum computers, may pose a danger to cryptocurrencies, including DES tokens.

Risk of losing funds

Funds collected in fundraising are in no way insured. If they are lost or lose their value, there is no private or public insurance representative that buyers can reach out to.

Returning funds

If a campaign does not end successfully, is canceled by its Startup or moderators, the funds are returned to the wallets of those users who transferred funds to the wallet of the smart campaign. Fees charged by Descrow are non-refundable even if a campaign does not end successfully.

Risks of using new technologies

DES tokens are a new and relatively untested technology. In addition to the risks mentioned in this document, there are certain additional risks that the team of the Descrow platform cannot foresee. These risks may manifest themselves in other forms of risk than those specified herein.

Crowdfunding

The Descrow platform disclaims any and all responsibility or liability in relation to any obligations made by Startup of crowdfunding campaigns to Investors and Experts who bought their digital tokens on the Descrow platform. The Descrow is not a part of a contract between Startups of crowdfunding campaigns and their Investors. The Startup is solely responsible for fulfilling the promises made in their project.

This Agreement constitutes the entire agreement between the parties with respect to the subject matter of this Contract. All previous agreements, discussions, presentations, warranties, and conditions are combined in this document. There are no warranties, representations, conditions, or agreements, express or implied, between the parties, except those explicitly stated in this

5. Assignment; Waiver. You may not transfer, assign or delegate any of your rights, obligations or privileges hereunder; we may do so at any time. Any assignment of the foregoing other than as provided for in this section shall be null and void. No waiver of any provision or any right granted hereunder will be effective unless set forth in a written instrument signed by the waiving party. No waiver by either party of any breach or default hereunder shall be deemed a waiver of any subsequent breach or default.
